

How we're keeping everyone safe and healthy

Staying COVID-19 Secure

For the safety of our customers and everyone who works at Jones the Furnishers, we're carefully following the government's COVID-19 Secure guidelines around workplace safety. We're continually monitoring this guidance and updating and enhancing our own routines whenever we need to.

Social distancing in stores

We're asking everyone to keep at least 2 metres apart from other customers and our staff

Hand sanitising and store cleaning

We're asking everybody who comes into a store to use hand sanitiser before browsing. Additional hand sanitising stations are located throughout each store. We've also introduced frequent and thorough in-store cleaning routines with a particular focus on surfaces like door handles and stair handrails.

Checking everyone's temperature

To help ensure that our store is a safe place to visit and work at, we're taking the temperature of every customer as soon as they come into a store. We're also checking the temperature of every employee daily. If you have any of the symptoms of COVID-19 listed on the NHS website, please visit us another day.

Personal protective equipment

Store team members have been provided with personal protective equipment including face visors.

Avoiding physical contact

As we all know, one of the best ways to help stop the spread of COVID-19 is to avoid physical contact with other people. As well as keeping your distance when visiting one of our stores, please know that there's no need to shake our consultants' hands – a friendly wave will do.

Safe, non-contact delivery

For your peace of mind, our delivery specialists observe strict social distancing. This includes working in fixed pairs and wearing face masks, protective gloves and shoe coverings. They use hand sanitiser before and after every delivery and have their temperature taken several times a day.
